

## Cytokinetics to Host Investor & Analyst Day on October 16, 2024

October 2, 2024 8:00 PM EDT

*Company Leadership to Discuss Cardiac Myosin Modulation, Specialty Cardiology Programs and Commercial Launch Preparations*

SOUTH SAN FRANCISCO, Calif., Oct. 02, 2024 (GLOBE NEWSWIRE) -- Cytokinetics, Incorporated (Nasdaq: CYTK), today announced that it will host an Investor and Analyst Day on Wednesday, October 16, 2024 from 8:30 AM to 11:30 AM ET. The event, entitled "Heart Forward: Advancing Cardiac Myosin Modulation," will be held at the Nasdaq MarketSite in New York City, and streamed live online.

Members of Cytokinetics' senior leadership team will be joined by expert clinicians to discuss the Company's cardiac myosin modulation programs and opportunities to address high unmet clinical needs in specialty care cardiovascular markets. Included amongst these topics will be discussion and elaboration on the global commercial launch preparations for *aficamten*, a next-in-class cardiac myosin inhibitor in development for the potential treatment of patients with obstructive hypertrophic cardiomyopathy (HCM).

The event will feature the following expert clinicians:

- **Mariko Harper, M.D., MS, FACC**, Medical Director, The Hypertrophic Cardiomyopathy Center, Virginia Mason Franciscan Health
- **Shepard D. Weiner, M.D.**, Medical Director, Hypertrophic Cardiomyopathy Center and Associate and Professor of Medicine, Columbia University Medical Center
- **G. Michael Felker, M.D., MHS, FACC, FAHA, FHSA**, Professor of Medicine, Division of Cardiology, Duke Clinical Research Institute, Principal Investigator of the Confirmatory Phase 3 Clinical Trial of *Omecamtiv Mecarbil*

Interested parties must register online at <https://cytokinetics-2024-analyst-and-investor-day.open-exchange.net/> by October 13, 2024. Registered attendees may access the live virtual event platform by visiting the Investor & Media section of the Cytokinetics website at [www.cytokinetics.com](http://www.cytokinetics.com). A link to the webcast replay will be archived on the Cytokinetics website until April 16, 2025.

### About Cytokinetics

Cytokinetics is a late-stage, specialty cardiovascular biopharmaceutical company focused on discovering, developing and commercializing muscle biology-directed drug candidates as potential treatments for debilitating diseases in which cardiac muscle performance is compromised. As a leader in muscle biology and the mechanics of muscle performance, the company is developing small molecule drug candidates specifically engineered to impact myocardial muscle function and contractility. Cytokinetics is preparing for regulatory submissions for *aficamten*, its next-in-class cardiac myosin inhibitor, following positive results from SEQUOIA-HCM, the pivotal Phase 3 clinical trial in obstructive hypertrophic cardiomyopathy which were published in the *New England Journal of Medicine*. *Aficamten* is also currently being evaluated in MAPLE-HCM, a Phase 3 clinical trial of *aficamten* as monotherapy compared to metoprolol as monotherapy in patients with obstructive HCM, ACACIA-HCM, a Phase 3 clinical trial of *aficamten* in patients with non-obstructive HCM, CEDAR-HCM, a clinical trial of *aficamten* in a pediatric population with obstructive HCM, and FOREST-HCM, an open-label extension clinical study of *aficamten* in patients with HCM. Cytokinetics is also developing *omecamtiv mecarbil*, a cardiac muscle activator, in patients with heart failure. Additionally, Cytokinetics is developing CK-586, a cardiac myosin inhibitor with a mechanism of action distinct from *aficamten* for the potential treatment of HFpEF.

### Forward-Looking Statements

This press release contains forward-looking statements for purposes of the Private Securities Litigation Reform Act of 1995 (the "Act"). Cytokinetics disclaims any intent or obligation to update these forward-looking statements and claims the protection of the Act's Safe Harbor for forward-looking statements. Examples of such statements include, but are not limited to, statements relating to Cytokinetics' and its partners' research and development activities of Cytokinetics' product candidates. Such statements are based on management's current expectations, but actual results may differ materially due to various risks and uncertainties, including, but not limited to the risks related to Cytokinetics' business outlined in Cytokinetics' filings with the Securities and Exchange Commission. Forward-looking statements are not guarantees of future performance, and Cytokinetics' actual results of operations, financial condition and liquidity, and the development of the industry in which it operates, may differ materially from the forward-looking statements contained in this press release. Any forward-looking statements that Cytokinetics makes in this press release speak only as of the date of this press release. Cytokinetics assumes no obligation to update its forward-looking statements whether as a result of new information, future events or otherwise, after the date of this press release.
